

NOTICE for parents/guardians of students with food allergies:

When there is an event involving food and drinks in your child's classroom you will be notified by the PTA and/or classroom teacher. Notices are usually sent in the PTA newsletter or flyers.

The PTA and staff are aware of the specific allergies in every grade and they are updated as information changes. There will never be food containing peanuts or nut products and every food/drink that is at the event **MUST** have an ingredients label. Prior to the event please remind your child what they can and cannot eat due to their allergies!

If you would like a list of the food and drinks please check the PTA website

<http://www.bushkillpta.org> or PTA Facebook page www.facebook.com/Bushkillpta. The coordinators must have the list posted 1 week prior to the event. If the event is not PTA related please contact your child's teacher for the food and drink list. Any questions please call the nurse at BES 610-759-1118 Ext. 5103.

Thanks for your cooperation to keep your child safe at school.
